Big Dick Energy

Does size really matter?

By George Masterson, PhD

Since the beginning of time men have been going out of their minds, worrying about dick size. Marketers have answered the call, providing men with a dizzying array of sex aids. Studsmanship is less often born than it is made in a factory.

Every porno magazine and video features guys with 10-inch dicks that seemed to stay hard forever an eternity. And most of the gimmicks sold for exorbitant prices are available in a number of surprising sizes, length and circumference. Some stagger the imagination and although many are life-like in appearance, most are ugly looking and said to be a turn-off for hundreds of horny females instead of the turn-on these artificial cocks are supposed to be, according to the so-called experts.

Many of these penis-like creations—whether they vibrate, pump up or shoot semen-like substances or clamp on or slip on your cock, large or small—are specifically designed to serve in lieu of a cock. That is, whether

or not your dick is long, short, fat, thin, erect or flaccid, the artificial cocks double for your own precious instrument.

Some of these penis extensions, like a rubberized monstrosity appropriately named “macho man” and measuring 7-1/2” x 1-3/4”, can accommodate any size cock because of two things: (a) it is so filmy and sheath-like you can slip your cock inside and (b) it is designed to be strapped onto the groin.

Needless to say, this stimulating sex aide is also found to be extremely useful to not only lesbians because its dual purpose permits it to be used in lieu of a cock, but

normally hungry and horny girls also are known to favor it for a so-called second fuck after their partner shoots his load, rolls over and drifts off to sleep.

So what it all comes down to is that the size of one’s dick hardly matters any more since these objects serve as alternate stimulators. However, this fact is becoming more and more obvious in the dimly lit back rooms of private sex clubs where swingers of every description gather as well as a subject of conversation in suburban playrooms. It does not excuse, or as one woman so aptly put it, “forgive” the owner of a small dick because he doesn’t know how to use it effectively.

It would seem then that even following that the cliché, it ain’t what you got, it’s how you use it has a lot more meaning and significance than it would appear. But in the long run this does little to alleviate, mitigate or ease the pique chagrin and the dismay along with the embarrassment and frustration the owner of a small penis is supposed to suffer day and night,

your cock makes my mouth water!

rain or shine.

But sticking to the subject of the proper and efficient use of the fuck tool known as the human cock, a list of accessories or as the French put it, accoutrement would, of necessity, include every item of psychological advice known to man since the prehistoric dawn in the life of a caveman.

Literally there are dozens of sexual aids that have little or nothing to do with anything artificial and would include adequate foreplay, tenderness, vulgar and lewd music, perfume and sexy lingerie; blunt nudity, unusual places of fucking as in any public or private place that isn't one's bedroom—unless it's a bench in the local park behind the statue of some local historical figure.

There are so many avenues and variations on the theme of preparing oneself and the lady in question for a dynamic act of fucking that can be as totally satisfying to both partners, despite the fact that the penis is small, undersized physiologically or in a state of tumescence, like drooping leaves on many a dehydrated house plant.

But no matter how often this particular point is stressed, the psychological obstacle that too often results from having a small cock, more than it does from premature ejaculation. There will always be those men, age notwithstanding, whose fears and basic timidity override the knowledge that it's not how nobly or ignobly one is endowed, but rather an intrinsic appreciation of one's own manhood (plus a sensible and deliberate effort along with a set of rules to "rectify" the situation).

That's what the problem of a small dick is all about. It's getting down to the bottom line, where all that's needed is a sensible and sensitive approach to the situation. And in hundreds of cases reported

in as many articles in men's magazines over the years, many of them realistically researched and professional in tone and content, it's to be observed and noted that sexual success like beauty is in the eye of the beholder. When a small

score were so modest that many had no idea of the difference between a big dick and a little one unless she was truly enlightened and experienced. However, many were not and even today in the light of female sexual permissive-

cocksman blinds himself to the truth, he has no one but himself to blame.

The art of studmanship—the art of fucking, in giving and receiving—managing it when you have it properly, investing not only your imagination (or that of another) but your own undeniable personal charm and the acceptable subtleties of your own character make-up—all this as a premise is not as old school as one might believe.

This is to say that it wasn't that long ago that many guys were stumbling in the darkened labyrinth of sexual ignorance. And it's to be reckoned that in those days there were as probably as many small dicks as there are today.

In those days too, women by the

ness, scores of women remain blissfully ignorant or are just plain hung up with their own "female" problems, few of which have anything to do with sex or the intense pleasures to be experienced.

Despite the fact that the chronological (not mental) age of the fuckable female is reported to begin in the teenage years, and the resolve of educators and sexual hygiene instruction notwithstanding, scores of females from all walks of life quietly and privately suffer the tortures of the damned—the working of their vaginas and other erogenous zones as unfamiliar to them as it was to thousands of women in the dark ages.

Half the time, according to prominent sexologists and other

pseudo-scientific research teams, women are so blissfully ignorant in the arena of sexual relations that they couldn't give a damn what size a guy's dick is, much less whether or not he knows how to use it. This is a mystery of the sex-

a quiescent state—is a load of bullshit.

Whether or not there are unconditional guarantees about the effectiveness of these stretching devices, that the application is

es and in light of modern sexual technology, as it were; it is incredible that that degree of sexual illiteracy exists.

So it's worth repeating that the problem is not exclusively the small penis, the large penis or premature ejaculation, as one would believe when reading the propaganda that seems designed only to sell merchandise and holds no real promise of correcting the problem. And whether or not these "stretch it" devices can do the job as claimed is suspect. In many cases, consumers reported that statements like a certain traction device designed exclusively for the penis, when used according to instructions, will result in a marked enlargement of the cock—whether in a fully erect condition or in

foolproof, and that the user will see and "feel" a difference, be surprised and delighted, has no bearing on the case of the small dick.

No matter how many years of intensive research and testing, and how bold the print of claims that you can add inches to the girth and length of your cock, you can bet your bottom dollar it won't work for you.

Why won't these devices work for you? Using the identical psychology of the penis, wouldn't it then follow that a dude with a six-inch cock who masturbates daily or twice weekly for over 40 years would notice even a nominal increase in the length of his dick?

It would follow, but it doesn't. And the manufacturers of the de-

vices know this as much as they know the world is round.

So let the buyer beware: The man with the small or under-sized phallus should sort out his thoughts on the subject and try to understand that penis size is not as important as people would have you believe.

In fact, most women questioned by a prominent sex investigator reported the exact opposite. Big cocks hurt. Medium sized cocks are no different than big ones or little ones.

But the psychology of the idea does exist and cannot be refuted. Bigness in anything is attractive to many people. (Take the state of Texas, for example.) So it is with the cock, with women's' breasts, fat asses, but certainly not with cunts that swallow up a cock even if it's 12 inches in length and three inches in circumference, with a head the size of a prize-fighter's fist.

Once more, it's how you use your cock, where you put it—say up the nostril or in the ear or it's so small it will get lost inside the average belly button. But the man who knows how to rub his cock over a tiny, rubbery nipple and excite it, or how to dip it into an asshole, or how to slap a pair of sexy sensual lips with it, is a man who has many better things to do than contemplate the size of his dick. Just as philosophers are said to study the navel, but not so much as to analyze or study the physiological status as to marvel at the fact that this belly button is a reminder that at one point he was closely attached to his mother and that the severing of the umbilical did not free him from his maternal obligations or lessen the moral or psychological attachment.

It is true many women love huge cocks, the more enormous the

better. It is also true women love to cuddle flaccid cocks in their warm, wet mouths, to kiss and stroke and fondle; to lick and suck on penises of all size and shapes; to slide the foreskin up and down, to smile at the cock as they clench it, squeeze

but some men can envy a woman's cunt, her breasts and above all, her asshole.

A comedian once said that what the sexes envy most about the opposite is just that. He laugh-

getting drenched in the rain and already late for your an appointment.

It might be mentioned here that there are, of course, some sex aids that do aid and abet the use of the dick, if indeed it happens to be smaller than what is called average.

These would include French ticklers, the use of vibrating dildos up inside her cunt next to your own penetrating cock; different fucking jellies and lubricating creams that women love to have smeared all over their naked bodies; super ejaculators that drown her cunt, flooding it so that each violent spurt of this clever instrument increases the thrills and the trembling as she reaches her own orgasm.

There are professional medical aides that help you get and keep a hard-on; devices that artificially keep the penis rigid indefinitely, and with experience this invisible dick sheath allows the head of the cock to be exposed. There are other aids known as "ripples," into which you slip your cock and then proceed to fuck like the proverbial jackrabbit; a clever device that stays on firmly on your penis without straps and also squeezes the base of your cock and can prolong the erection.

There are clitoral stimulators. Then there's the orgasm net, an open-designed contraption that slides on your cock and massages the clitoris and vagina simultaneously. There are pneumatic penis extensions that work well for many men. Also useful for small-hung men are finger ticklers, which you use on your finger at the same time you fuck with your cock in and out.

So whatever the size of your cock, if you fall in love with it you've won half the battle. If you also love yourself, man, you've got it made.

it, seeking a reaction and not only one of ejaculation.

It is true that some women may fantasize a lot about the amount of cum shot into their mouths, cunts or between their toes. Invariably they "see" loads of sperm and choke unnecessarily on a few drops because they've been psyched to believe that every cock ejects a full hot thin stream that batters the walls of their cunt as it drenches the insides of their sucking mouths, gallons of rich, thick sperm leaking from their lips.

That's all crap.

Another point to keep in mind where the size of the dick is concerned is what is known as "penis envy." Not only women envy the cock of their lover because they don't have one of their very own,

ingly explains that's why men are down on women and women are down on men, meaning giving head, sucking, licking, eating a cock or a cunt, rather than frowning or being stupidly jealous that one's birthright did not include the gift—nay the luxury of—being completely androgynous or secretly hermaphroditic.

If one keeps in mind that the cock is also a vehicle and a vitally necessary component of propagation, and that each and every one of us is the result of a fuck (or something like it), it can also be remembered that tickling a woman's fancy, that is, causing spasms and convulsions in the vagina has about as much to do with the size of one's dick as an off-duty taxi has to do with you when you're

Skate and Masturbate

“When was the last time you jerked off?” she asked me.

I feel disrespected,” Coleen said.

My girlfriend didn’t like my porn habit, least of all after a miserable sexual performance on my part. Unable to get sufficiently hard, I had given up and scooted to my side of the bed. Now we lay there, side by side, hashing it out.”

When was the last time you jerked off?” she asked me.

There was no point in lying. “About fifteen minutes before you got here,” I told her. “You should have told me you were coming over. If I had known—”

“You wouldn’t have relied on porn to get your jollies? You would’ve waited for me?”

Her questions were strictly

rhetorical and uttered with much venom. Coleen had had enough. She was pissed, royally. She got out of bed and started putting on her clothes. I tried to dissuade her from leaving, but it was no use. She was done.

“I would hate to come between you and your precious porn,” she said, storming out of my bedroom.

I thought about trying to stop her but decided against this. Not now, I thought. Give her a few hours. Let her cool down.

In the meantime, I could check out the new skatepark.

The park was awesome. And it was just a few blocks from my

apartment. Everything was going great.

Until I slammed and broke my wrist!

Steering with my left hand, I drove to the emergency room. The doctor took a few X-rays, confirming what I already knew.

“You fractured your radius,” he told me.

The doctor put a cast on my arm, wrote me a prescription for some pain medication, and sent me home. “Look on the bright side,” he said. “You could’ve suffered a compound fracture. Those are really nasty.”

I had seen plenty of photos of compound fractures. Bones protruding from the skin. Grisly stuff. The doctor was right.

Looking for some sympathy, as well as an orgasm, I decided to give her a call.

It could've been a lot worse.

Of course, this put the kibosh on my masturbatory routine.

I tried to jerk off with my left hand, but it just wasn't the same. Clumsy. Uncoordinated. Pathetic. I couldn't generate the right amount of friction, couldn't control my pace, couldn't do much of anything.

This had the desired effect. Coleen's demeanor changed immediately. She went from rude and aloof to concerned and attentive.

"Poor baby," she said. "Do you need anything?"

sat there, running the fingers of my left hand through her soft brown hair, as she sucked my cock. Coleen started slowly. But it wasn't long before she sped up, pleasuring me with a jerky plunging motion. I groaned, stiffening within her ravenous mouth, my cast perched atop my right thigh.

Moments later Coleen rose to her full height. She took off her sundress and panties, dropping them on top of my shorts and underwear to form a single pile. Then she straddled me . . .

Coleen's pussy clenched my pole as she rode me cowgirl-style. She moved her hips expertly, bringing me closer and closer to the edge before climbing out of my lap and finishing me with her hand.

Sitting on my right side, she pumped me with a deft tugging motion

until I cried out and popped off all over my cast, spattering the thing with much cum.

"When they remove your cast," she said, "don't even think about going back to your old routine. Everything happens for a reason. Your broken arm was meant to repair our relationship."

And to think, Coleen used to bitch about me being too old to ride a skateboard!

After a few laughable attempts I finally gave up.

I hadn't talked to Coleen since she had stormed out of my bedroom. That had been three days ago. Looking for some sympathy, as well as an orgasm, I decided to give her a call. She wasn't happy to hear from me, so I pulled out my ace . . .

"I broke my arm," I stated flatly. "Not that you care . . ."

"You, Coleen. I need you . . ." She came right over and took real good care of me.

My cast ignited a fire inside Coleen, making her hotter and hornier than I had ever seen. She had me sit on the sofa. Crouching on the floor, she helped me out of my shorts and underwear, licking her lips at the liberation of my hard cock.

Then she devoured me. I
